What can the Juvéderm® ULTRA range offer you?

Juvéderm® ULTRA SMILE is specifically formulated for the lips and mouth area. It is designed to enhance lip volume, redefine lip shape and to treat vertical lip lines. It can also be used to treat depressions at the corners of the mouth.

Juvéderm® ULTRA 2 treats fine lines, especially those around the corners of the eye.

Juvéderm® ULTRA 3 smoothes medium and deep wrinkles like those between the nose and corner of the mouth and around lips.

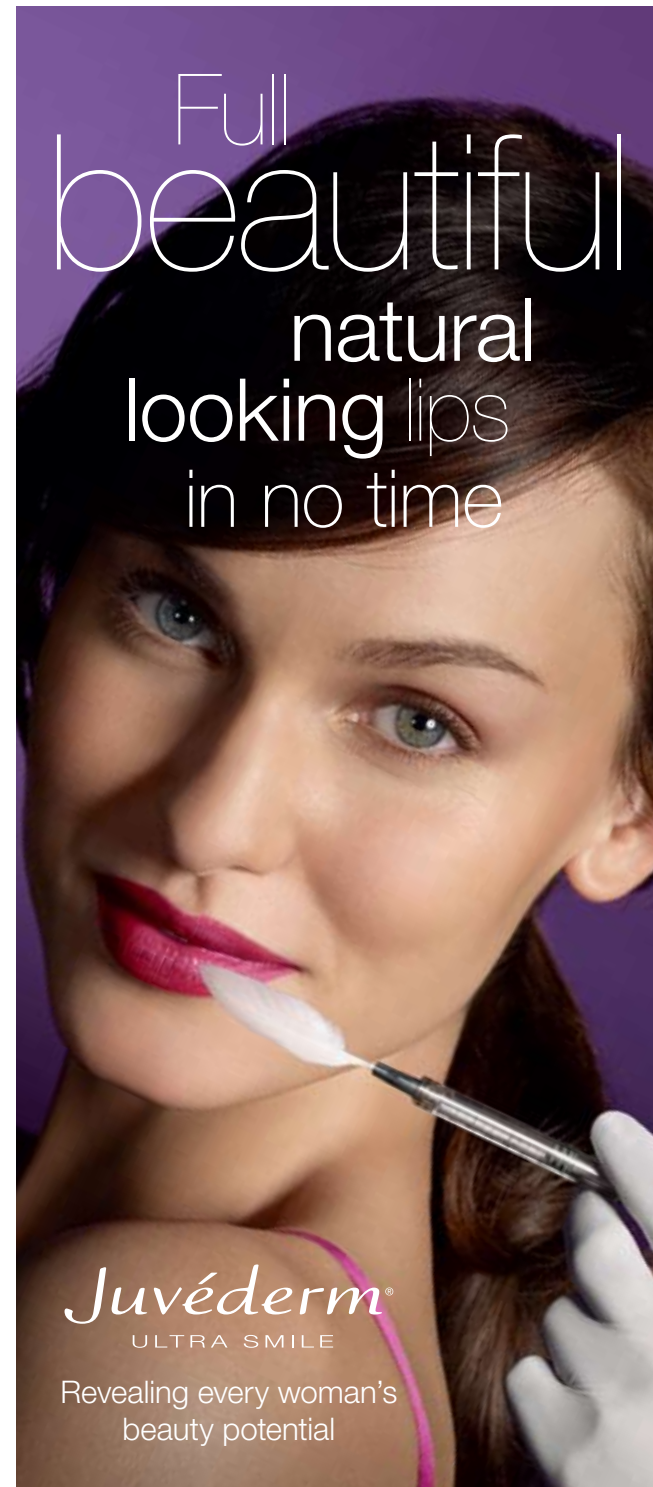

Juvéderm® ULTRA 4 has even greater volumizing effect and works on the most noticeable folds and lines and can improve facial contours.

Juvéderm®
ULTRA SMILE

Revealing every woman's
beauty potential

What do your lips say about you?

Your lips are special. For many people their lips are an important part of looking good and feeling beautiful.

Your lips frame every word you say and even when no words are spoken your lips can still express how you feel. Lips are often overlooked when it comes to preventing and treating the signs of premature ageing.

As time goes by, lips naturally tend to become drier and lose volume which brings about a thinner appearance and a loss of definition. The fact that the skin of our lips is much thinner than in other areas of our face, means the effects can be apparent earlier.

Let us help you to give your lips the attention and care they deserve with Juvéderm® ULTRA Smile - our first hyaluronic acid filler that's specifically for lips.

Juvéderm®
ULTRA SMILE

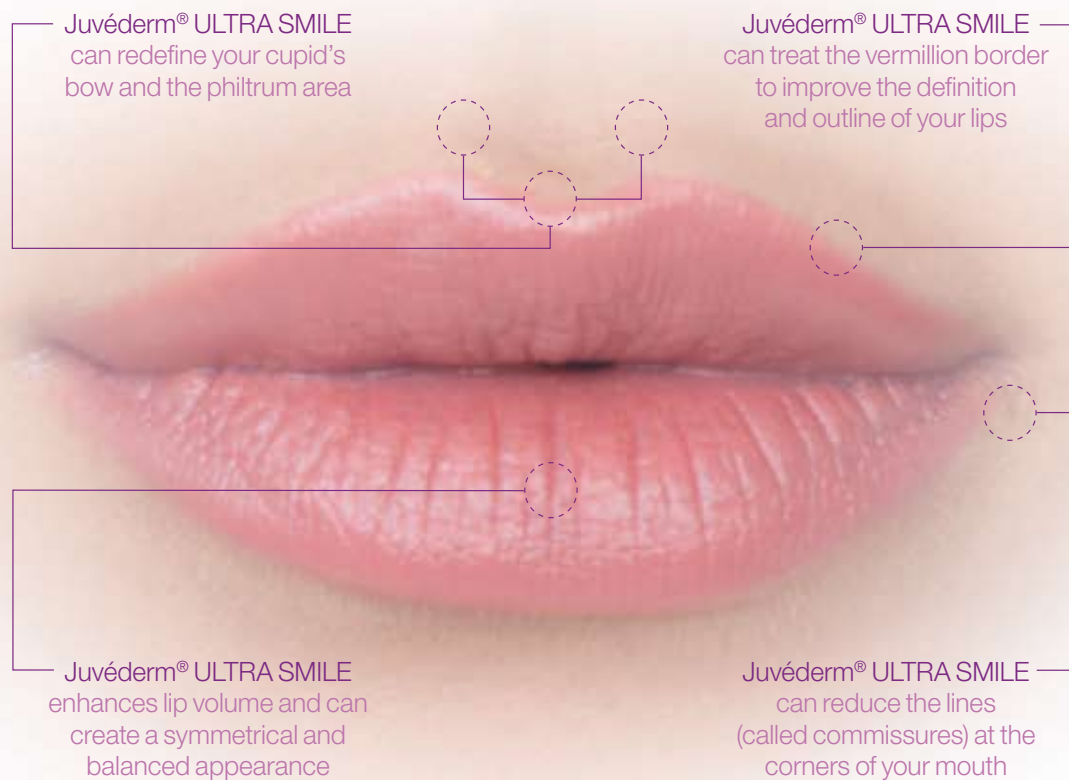

New Juvéderm® ULTRA SMILE for a natural look and a natural feel

Juvéderm® ULTRA SMILE shares all the unique qualities of the Juvéderm® ULTRA range. It is a smooth flowing gel, which restores volume, enhances the contours and redefines the outline of your lips.

Unlike some other fillers, Juvéderm® ULTRA SMILE is not granular which means that it is able to flow easily into the skin which looks and feels smooth and natural.

Because your lips are so sensitive, Juvéderm® ULTRA SMILE is made to be gentle. It is the first smooth hyaluronic filler for lips with lidocaine, a local anaesthetic, to help make the treatment experience more comfortable so you can relax and enjoy your new look.

See what Juvéderm® ULTRA SMILE can do for you.
